

The same two interventions recur across the portfolio: **embed AI literacy** (D5) and **fold in the QILT outcome data already in the system** (D10). Below: each program's current score, the priority moves, and an **illustrative** projected score if both are actioned. ♦ = reaches **RESILIENT** (28+).

PROGRAM	NOW	PRIORITY MOVES (P1)	Δ	PROJECTED
Master of Climate Science	26	Embed AI-literacy core unit (D5 1→3) Fold in QILT outcome data (D10 1→2)	+3	29 ♦
Master of Science (Physics)	25	Embed AI-literacy core unit (D5 1→3) Fold in QILT outcome data (D10 1→2)	+3	28 ♦
Master of Science (BioSciences)	25	Embed AI-literacy core unit (D5 1→3) Fold in QILT outcome data (D10 1→2)	+3	28 ♦
Master of Science (Chemistry)	25	Embed AI-literacy core unit (D5 1→3) Fold in QILT outcome data (D10 1→2)	+3	28 ♦
Master of Biotechnology	24	Embed AI-literacy core unit (D5 1→3) Fold in QILT outcome data (D10 1→2)	+3	27
Master of Science (Earth Sciences)	24	Embed AI-literacy core unit (D5 1→3) Fold in QILT outcome data (D10 1→2)	+3	27
Master of Data Science	24	Embed AI-literacy core unit (D5 2→3) Fold in QILT outcome data (D10 1→2)	+2	26
Master of Science (Bioinformatics)	24	Embed AI-literacy core unit (D5 1→3) Fold in QILT outcome data (D10 1→2)	+3	27
Bachelor of Science	23	Embed AI-literacy core unit (D5 1→3)	+2	25
Master of Environmental Science	23	Embed AI-literacy core unit (D5 1→3) Fold in QILT outcome data (D10 1→2)	+3	26
Master of Food Science	21	Embed AI-literacy core unit (D5 1→3) Fold in QILT outcome data (D10 1→2)	+3	24

4_{/11}

programs reach RESILIENT if the faculty runs a coordinated AI-literacy + outcome-evidence pass. The interventions are shared, so the marginal cost per program falls the more the faculty acts together — the case for a **faculty-wide** initiative over program-by-program fixes.
